A vote to repeal the Affordable Care Act is a vote to:

- **Wipe out coverage for more than 1 million Illinoisans**
  - 14,439 2nd District constituents are currently enrolled in the ACA Marketplace, and 56,307 CD 2 constituents are currently enrolled in ACA Medicaid expansion
  
  - The Urban Institute projects that an ACA repeal proposed through reconciliation would cause the state’s historically low uninsured rate to more than double within 2 years

- **Strip away vital protections and preventive services**
  - 5.6 million Illinoisans with pre-existing conditions (like diabetes and cancer) could be denied affordable coverage
  
  - 5.9 million Illinoisans, including 1.2 million children, could lose guaranteed access to preventive care that keeps them healthy
  
  - 2.1 million Illinoisans with Medicare could face increased prescription costs

- **Cripple the Illinois economy**
  - During our worst state budget crisis in history, Medicaid expansion has brought $3.4 billion critical federal dollars in additional revenue to Illinois
  
  - An ACA repeal could result in a loss of $50 billion in federal funding for Medicaid, CHIP, and financial assistance for Marketplace coverage over the next 10 years

Illinoisans can’t afford a repeal of the ACA.
