A vote to repeal the Affordable Care Act is a vote to:

- **Wipe out** coverage for more than **1 million** Illinoisans
  - **16,819** 7th District constituents are currently enrolled in the ACA Marketplace, and **59,494** CD 7 constituents are currently enrolled in ACA Medicaid expansion
  
  - The Urban Institute projects that an ACA repeal proposed through reconciliation would cause the state’s historically low uninsured rate to more than **double** within 2 years

- **Strip away vital protections and preventive services**
  - **5.6 million** Illinoisans with pre-existing conditions (like diabetes and cancer) could be denied affordable coverage
  
  - **5.9 million** Illinoisans, including **1.2 million** children, could lose guaranteed access to preventive care that keeps them healthy
  
  - **2.1 million** Illinoisans with Medicare could face increased prescription costs

- **Cripple the Illinois economy**
  - During our worst state budget crisis in history, Medicaid expansion has brought **$3.4 billion** critical federal dollars in additional revenue to Illinois
  
  - An ACA repeal could result in a loss of **$50 billion** in federal funding for Medicaid, CHIP, and financial assistance for Marketplace coverage over the next 10 years

*Illinoisans can’t afford a repeal of the ACA.*
