A vote to repeal the Affordable Care Act is a vote to:

- **Wipe out** coverage for more than 1 million Illinoisans
  - 32,829 9th District constituents are currently enrolled in the ACA Marketplace, and 31,224 CD 9 constituents are currently enrolled in ACA Medicaid expansion.
  - The Urban Institute projects that an ACA repeal proposed through reconciliation would cause the state’s historically low uninsured rate to more than double within 2 years.

- **Strip away** vital protections and preventive services
  - 5.6 million Illinoisans with pre-existing conditions (like diabetes and cancer) could be denied affordable coverage.
  - 5.9 million Illinoisans, including 1.2 million children, could lose guaranteed access to preventive care that keeps them healthy.
  - 2.1 million Illinoisans with Medicare could face increased prescription costs.

- **Cripple** the Illinois economy
  - During our worst state budget crisis in history, Medicaid expansion has brought $3.4 billion critical federal dollars in additional revenue to Illinois.
  - An ACA repeal could result in a loss of $50 billion in federal funding for Medicaid, CHIP, and financial assistance for Marketplace coverage over the next 10 years.

Illinoisans can’t afford a repeal of the ACA.
