# ABOUT US

EverThrive Illinois' mission is to achieve reproductive justice in the health care ecosystem through **community-driven partnership**, **policy action**, and **systems change**. We envision a just and affirming health care ecosystem where individuals, families, and communities can thrive. Our work is rooted in our core values of reproductive justice, anti-racism, centering the most impacted, and bold and transformative action.

We weave together **advocacy**, **community engagement**, and **strategic partnerships** so that every person in our state may parent or not parent on their own terms in safe and sustainable communities. We directly confront and seek to remedy the impact of racial and economic inequality in our health ecosystem, and **we mobilize champions for health equity** across Illinois. Our activities are organized under our five strategic priorities: achieve birth equity, increase vaccine confidence, advance contraceptive justice, expand comprehensive health care, and live our values.
