

# 2023 Recommended Immunizations for Children Aged

# 2-3 Years

Write the Date received in the box next to the vaccine once your child has received it.

<b>COVID-19**</b>	<b>Coronavirus disease 2019</b>	(Dose 1 of 1)	Date received
<b>Flu†</b>	<b>Influenza</b>	(Dose 1 of 1)	Date received

### FOOTNOTES

#### COVID-19\*\*

Number of doses recommended depends on your child's age and type of COVID-19 vaccine used.

#### Flu†

Two doses given at least 4 weeks apart are recommended for children age 6 months through 8 years of age who are getting an influenza (flu) vaccine for the first time and for some other children in this age group. The flu shot should be received yearly.

**DISCLAIMER:** Dosages and Vaccinations required are as presented on the CDC's recommended infant vaccination schedule. Contact your health care provider or visit <https://www.cdc.gov/vaccines> for more information.
