

EverThrive Illinois' mission is to achieve reproductive justice in the health care ecosystem through community-driven partnership, policy action, and systems change.

VISION

A just and affirming health care ecosystem where individuals, families, and communities can thrive.

VALUES

- Reproductive Justice
- Anti-Racism
- Centering the Most Impacted
- Bold Action and Transformation

Everyone has a role to play in making reproductive justice a reality. Help us continue to educate, organize, and develop equitable health solutions by visiting www.everthriveil.org.

The choice to have and raise a healthy family is a human right. Sadly, not all families have the same access to resources and opportunities to thrive.

We ensure that communities most impacted by injustice have the access, resources, and health care necessary to create and sustain healthy families on their own terms.

Our approach to change relies on our four strategic priorities coming together and building off each other. They drive us to foster a healthier, stronger state where everyone is thriving.

ACHIEVE BIRTH EQUITY

We will ensure that pregnant and postpartum people in Black and Brown communities receive the high-quality care and services they need to have safe and healthy births.

INCREASE VACCINE CONFIDENCE

We will provide community-centered education to address the root causes of vaccine reluctance, including systemic racism within the health care system that breeds mistrust.

EXPAND ACCESS TO COMPREHENSIVE HEALTH CARE

We will secure high-quality health insurance for all people and the holistic health care they need to thrive, including sexual and reproductive health care.

LIVE OUR VALUES

We will increase our staff capacity, resource development, and board effectiveness, centering our values in our organizational practices to achieve greater impact and strengthen our leadership statewide.
