

The Illinois School-Based Health Landscape:

*A Report on the 2016-2017 National
School-Based Health Care Census Data*

May 1, 2019

Housekeeping

- All attendees are on mute
- Please type questions into the side panel; Q&A will be at the end of the webinar
- Follow-up email to all registrants will include:
 - Presentation Slides and Report
 - Webinar Recording
- You can also download the presentation slides and report from the side panel now

OUR MISSION

EverThrive Illinois works to improve the health of women, children and families over the lifespan.

OUR VISION

EverThrive Illinois envisions a society in which all Illinoisans are able to live their healthiest life.

OUR VALUES

- Strong Partnerships
- Diverse Voices
- Health Equity

Illinois School-Based Health Alliance

- *The Illinois School-Based Health Alliance works to ensure that children and adolescents are healthy, safe, and ready to learn by advocating for and supporting school-based health centers as school and community assets*

ISBHA Strategic Priorities

- Improve the financial sustainability and growth of the SBHC model
- Protect and grow existing funding for SBHCs and strengthen the integration of SBHCs within the state's health safety net
- Foster a shared sense of identity, a culture of peer support, and commitment to quality care amongst SBHCs
- Ensure access to data that provides a statewide snapshot of SBHCs

Current ISBHA Projects

- Alternative Reimbursement Model Project
 - Improving Medicaid MCO-SBHC partnerships
- Advocacy:
 - Expanding the IDPH SBHC Grant Program
 - Updating the SBLHC Fee Schedule
- Empowerment Institute
- Contraceptive Access in SBHCs
- Census Reporting and Summary

Presentation Goals

- Provide an overview of the current adolescent health and SBHC landscape in IL, including trends over time
- Provide information that can be used by the SBHC field to:
 - Inform grant writing
 - Assist SBHCs in advocating on behalf of the model
 - Aid SBHCs with external communications related to the reach and impact of SBHCs in IL

Illinois Department of Public Health

- Ongoing data quality improvement efforts
- SBHC database
 - Aggregate and analyze data
 - Individualized summary reports for each SBHC

What's in the Report?

- Adolescent Health Fast Facts
- National School-Based Health Care Census – Fast Facts
 - National SBHC Census – Populations Served
 - National SBHC Census – Staff and Services
 - National SBHC Census – Funding and Sponsorship
 - National SBHC Census – Contraceptives

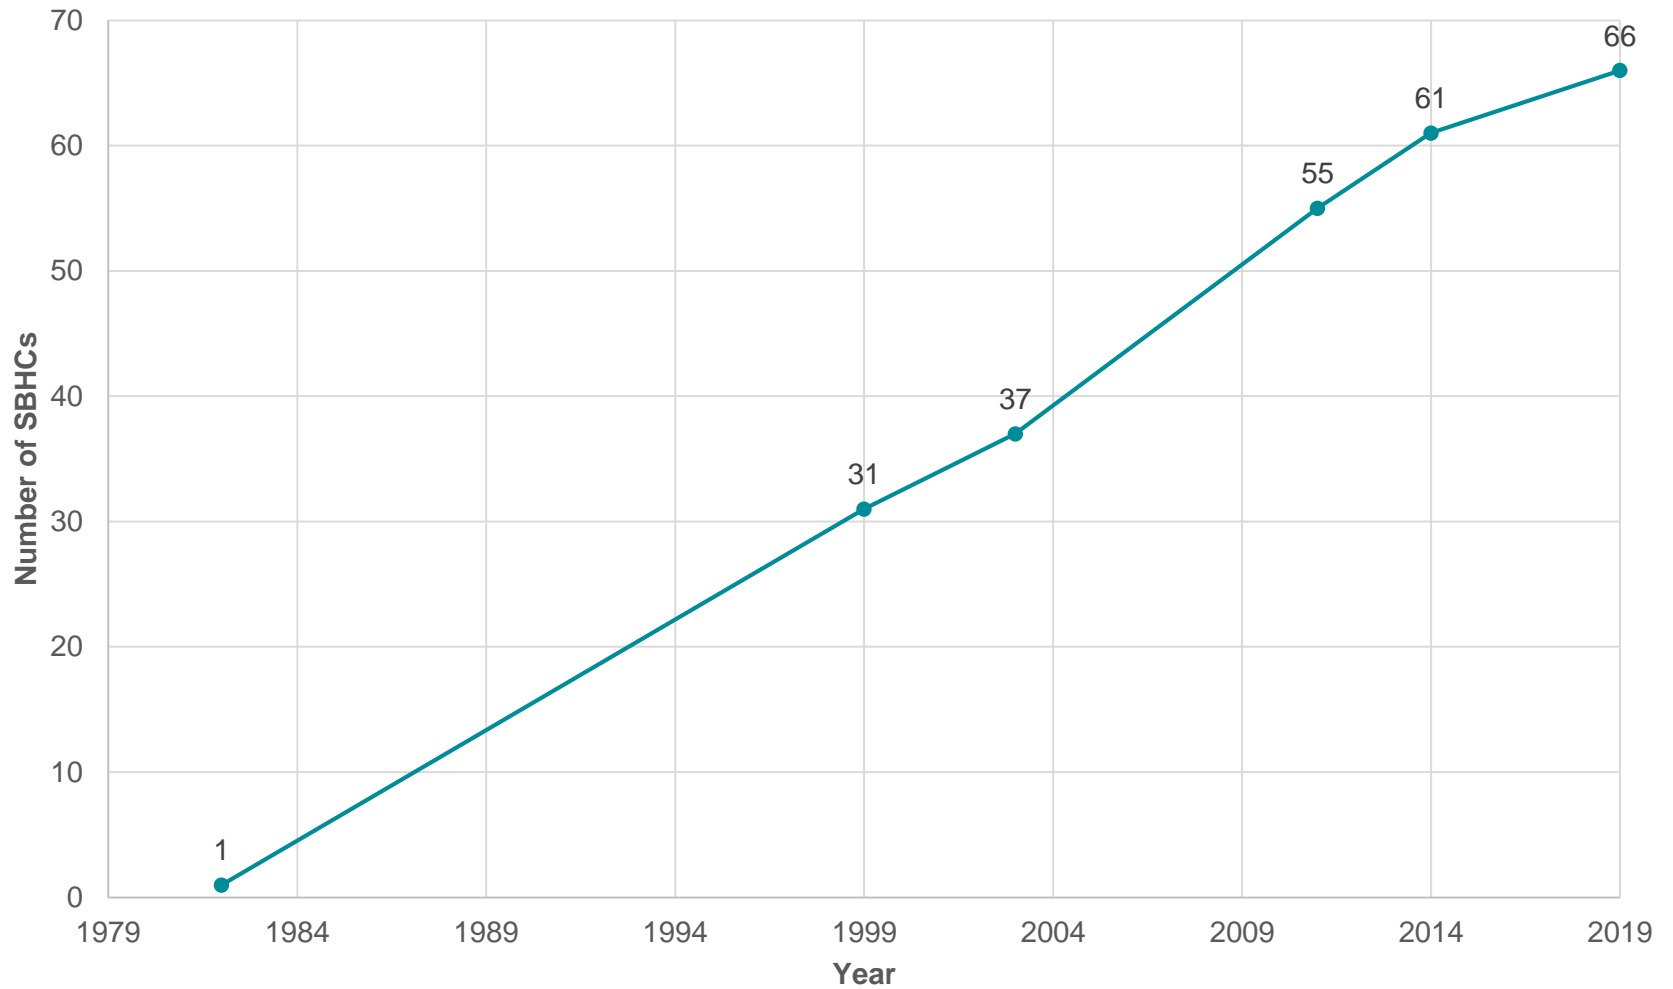

Adolescent Health Data

- According to data from HHS, 15% of adolescents aged 12-17 in Illinois have been diagnosed with a chronic health condition
- Over half of adolescents in the US who experienced a major depressive episode in the year before their report did not receive treatment
- Although 82% of women aged 15-19 at risk of unintended pregnancy were using a contraceptive method, only a little over half were using a highly effective method

2016-2017 National School-Based Health Care Census

- Conducted by national School-Based Health Alliance every 2 years
- 56/65 SBHCs reported for IL
- Unless otherwise indicated, data in this presentation is reflective of those that responded to the Census

SBHCs in Illinois

*Based on EverThrive IL data

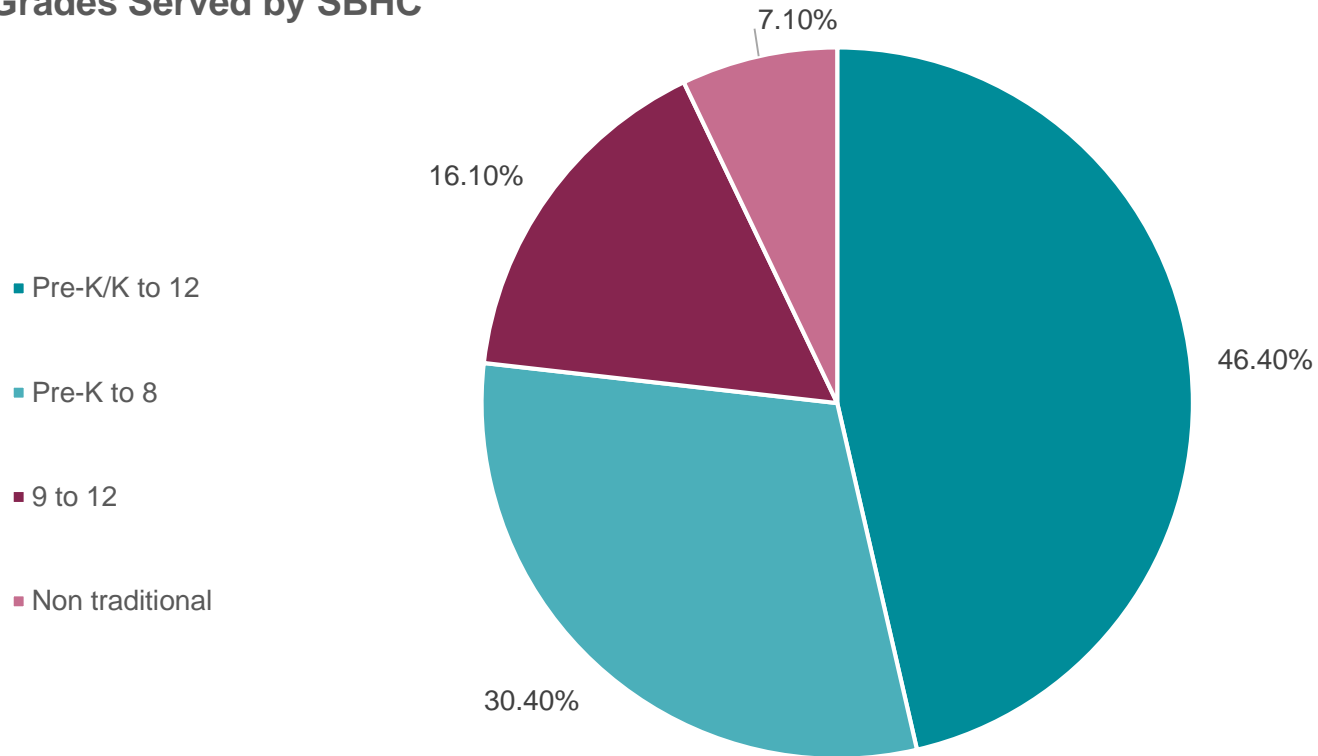

Populations Served

- Average:
 - Visits per year: 1,967
 - Number of individual patients: 667
- 84% of users are enrolled in Medicaid or are uninsured*
- 62% of users are aged 12-20*

*Based on IDPH data

Student Population

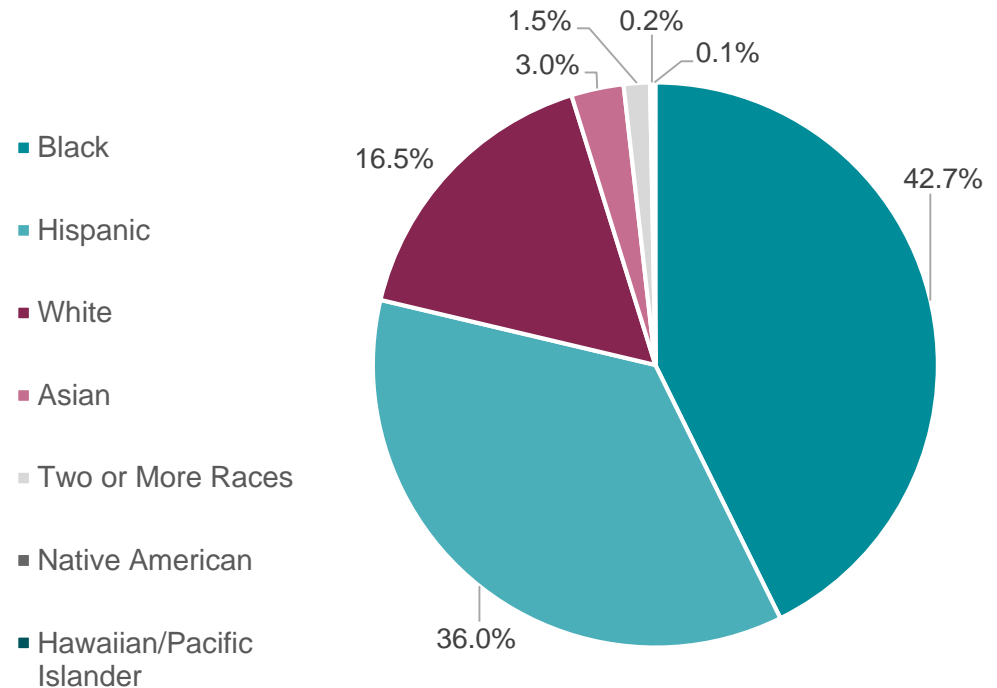

Grades Served by SBHC

Student Population

- 66% of SBHCs are in schools where over 50% of students are eligible for free or reduced lunch
- 39% of SBHCs are in schools where over 90% of students are eligible for free or reduced lunch

Student Population Demographics

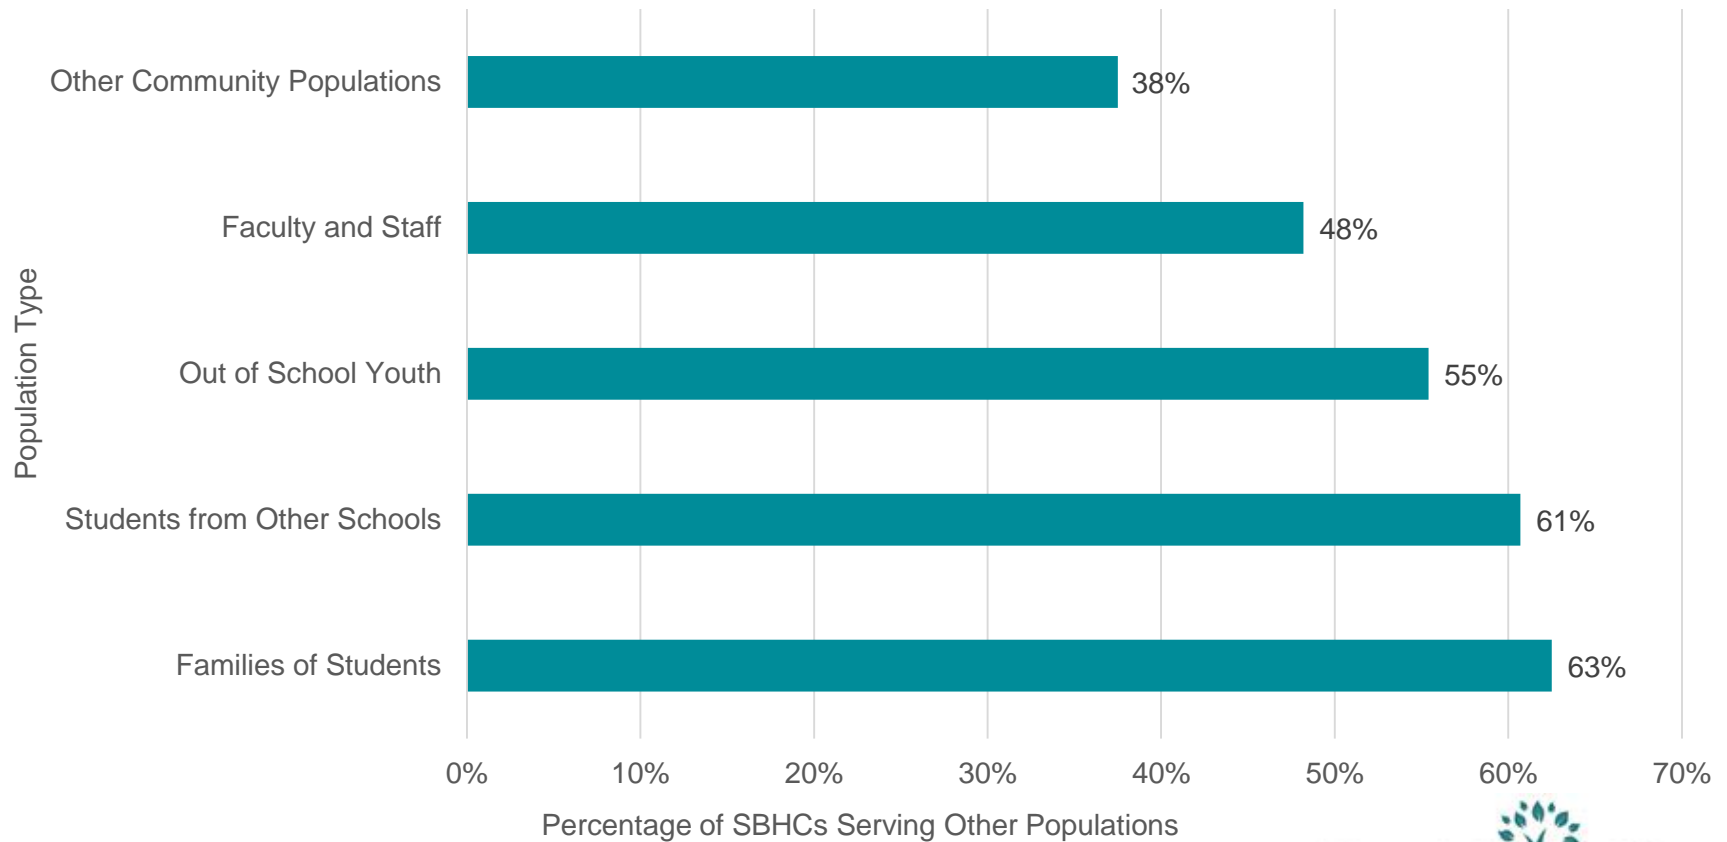

Accessibility

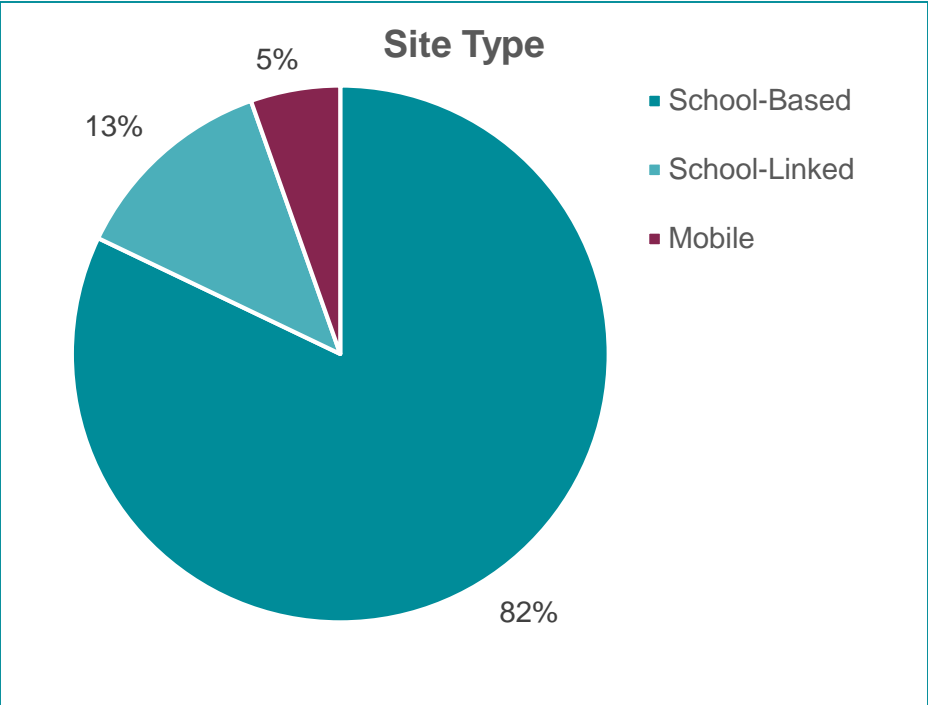

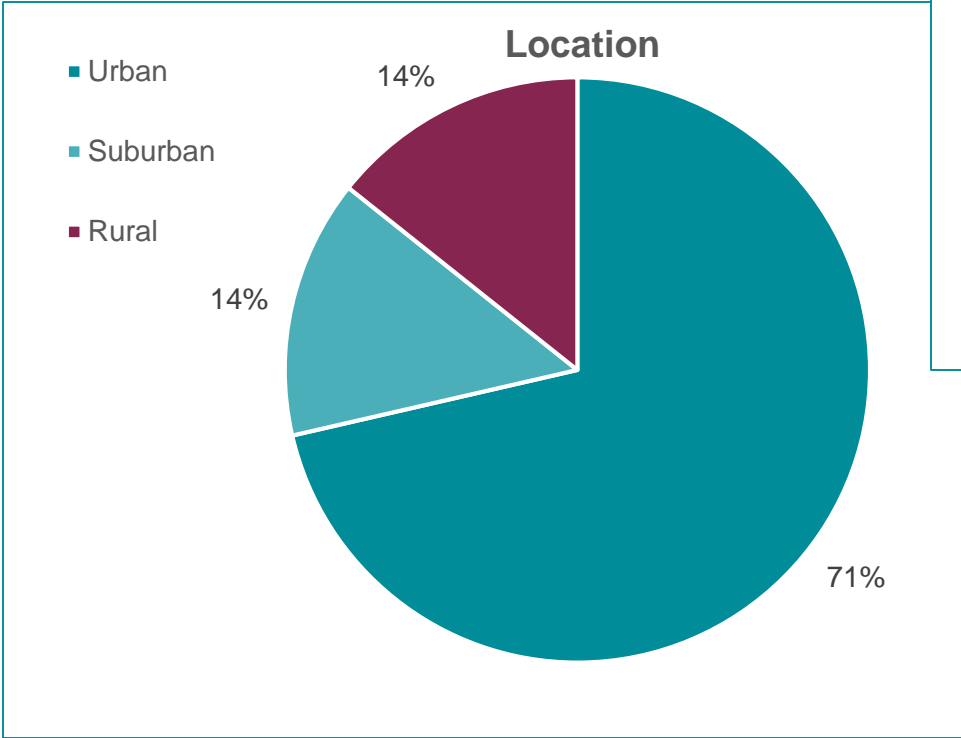

- See populations other than students at their location: 70%
- Average number of hours per week: 38
- Open during the summer: 75%

Population Served: Beyond Students

Populations Served

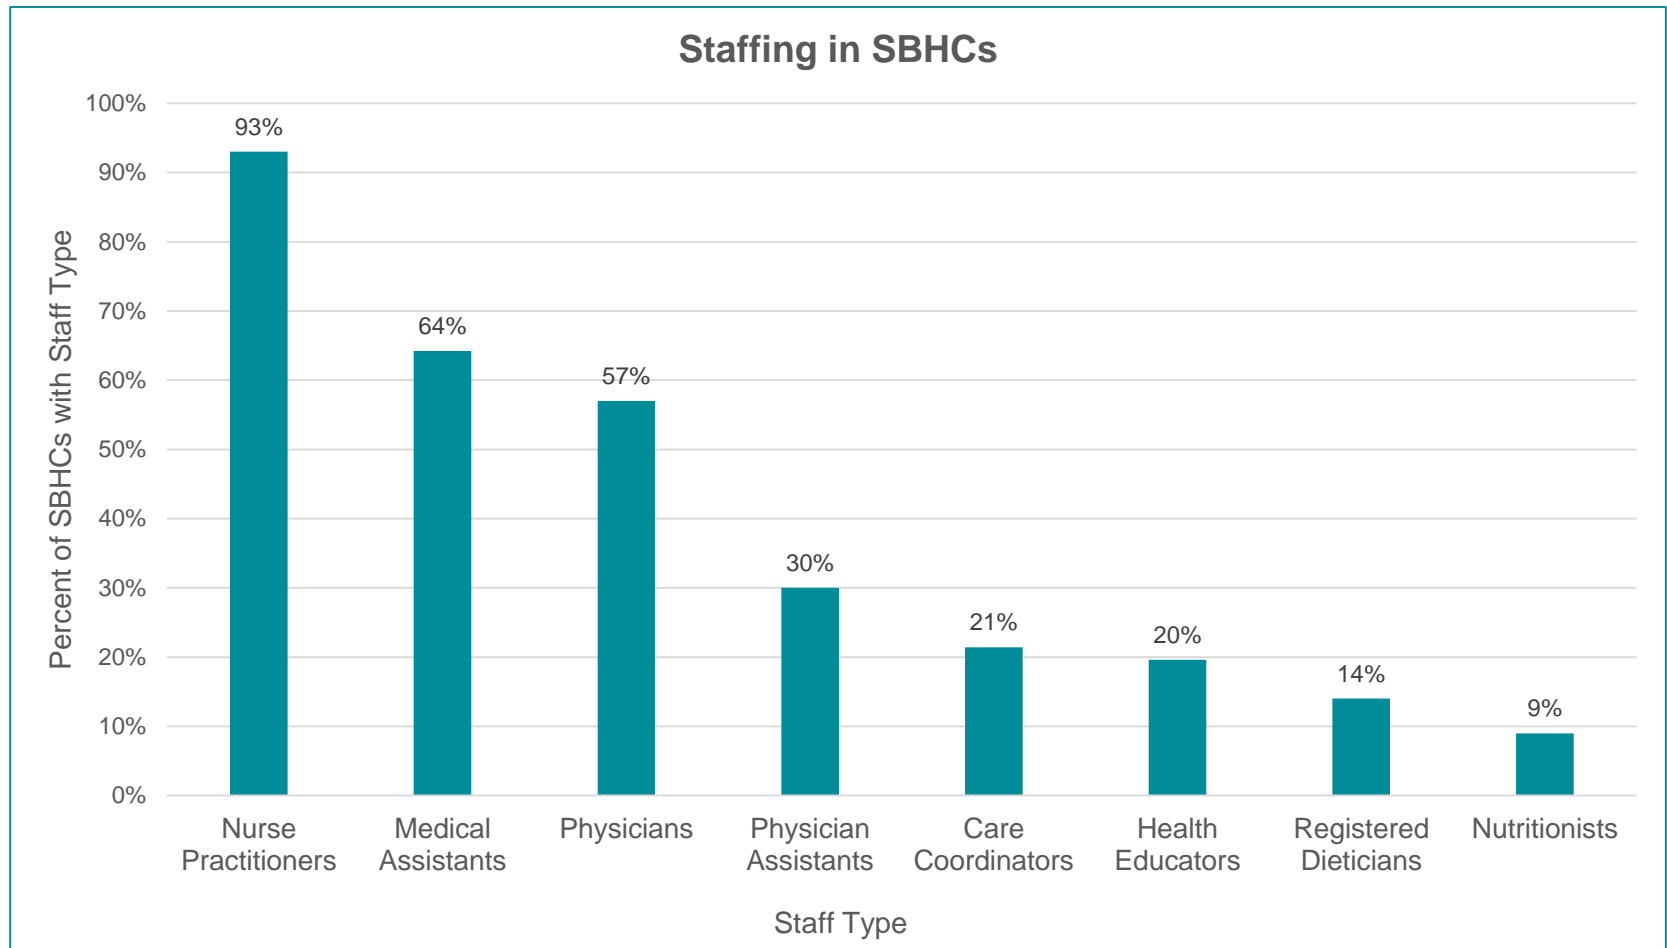

Location

Staff and Services

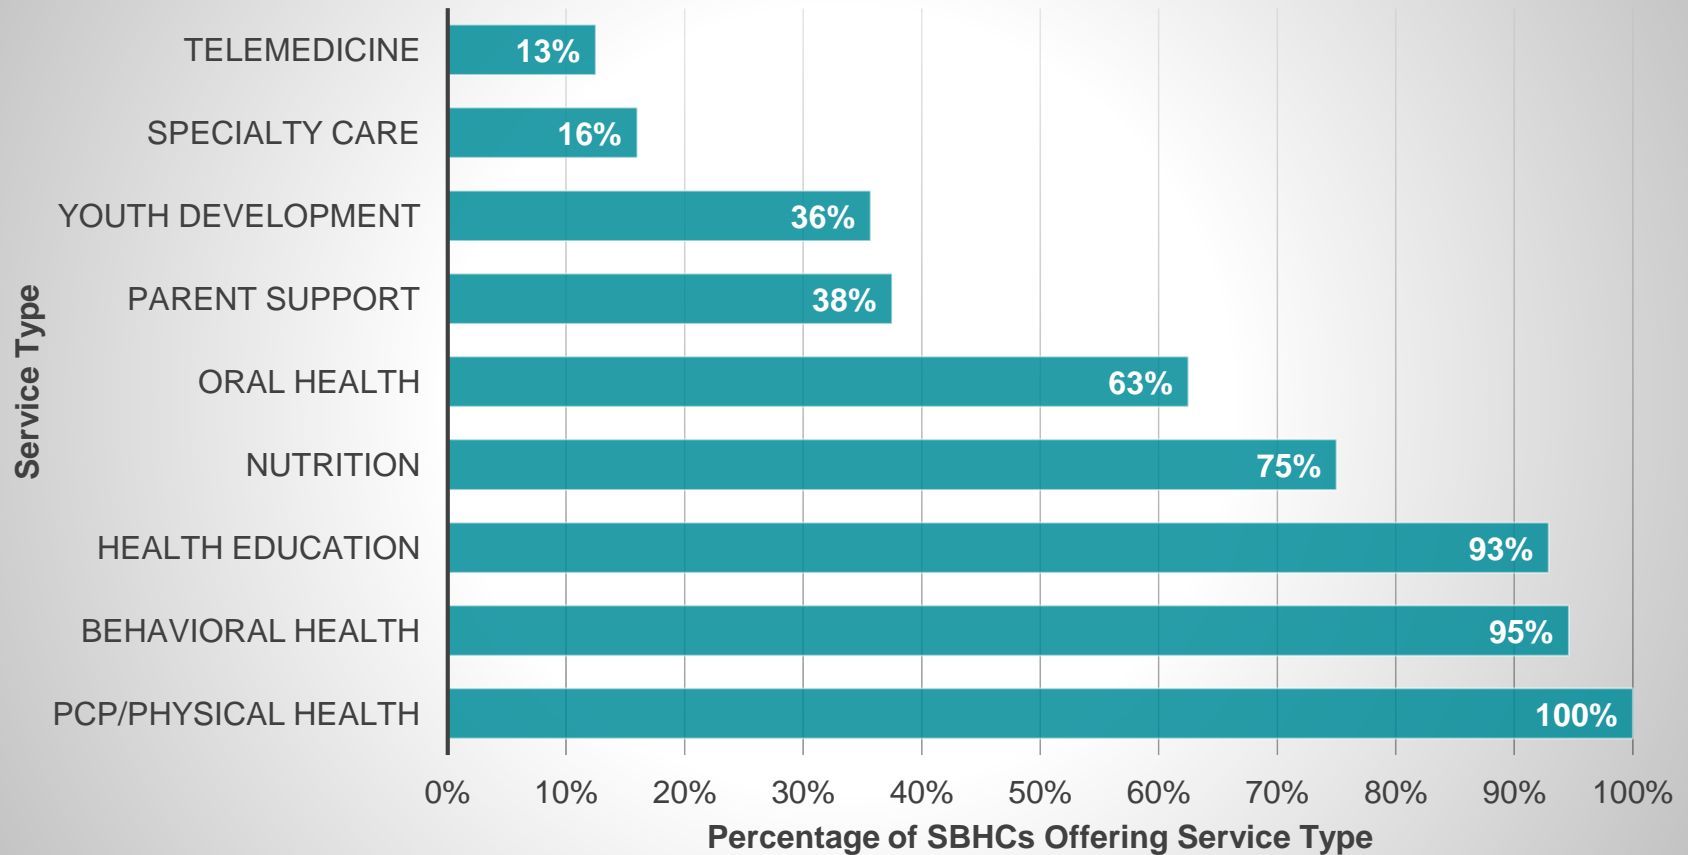

- Over half (64.3%) of SBHCs have an extended care team
- Almost all (95%) of SBHCs have both primary care and behavioral health staff and services

Physical Health Staff

Services

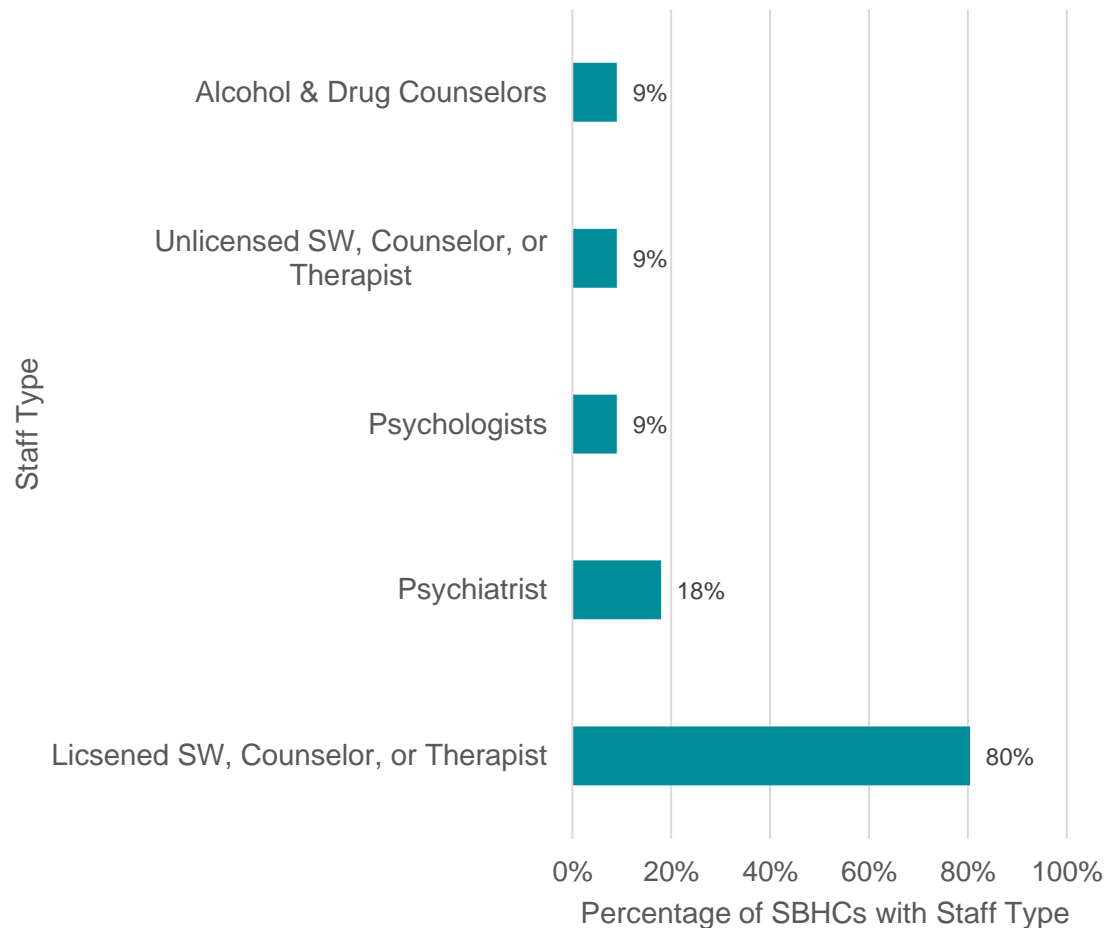

Services Provided by Sponsoring or Partner Organization

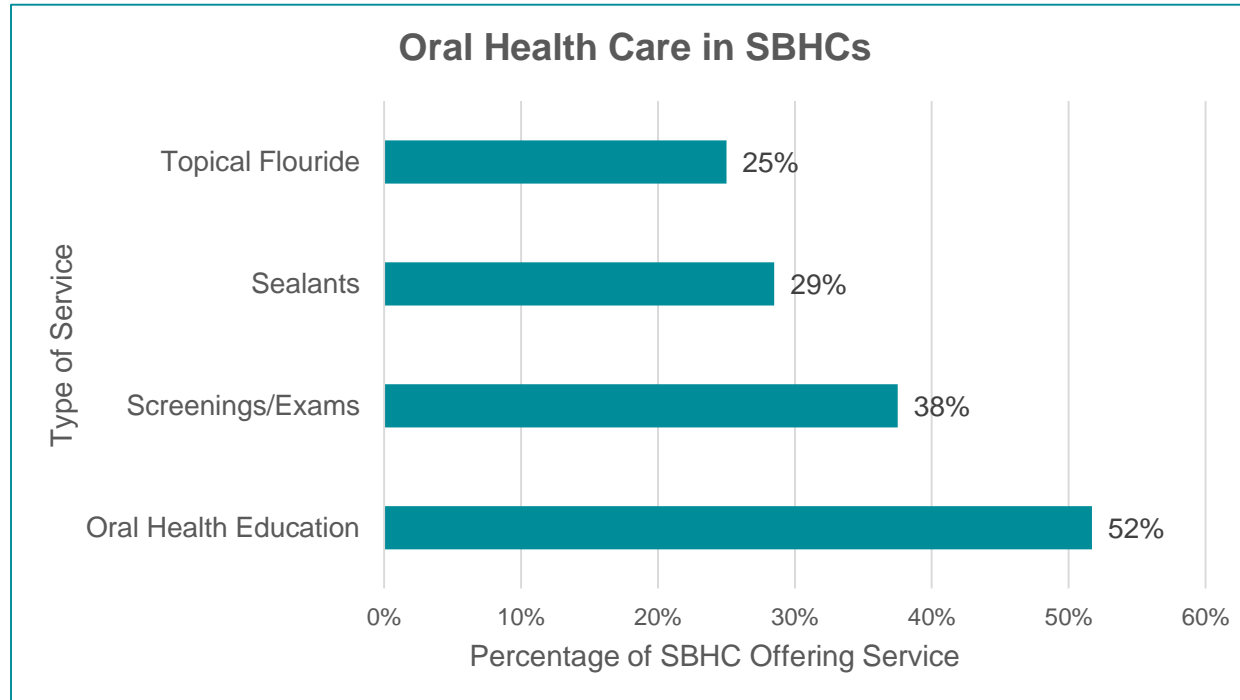

Behavioral Health

- Average number of onsite BH service hours per week: 31
- Wide range of hours: 14% of centers offer less than 10 hours per week

BH Providers in SBHCs

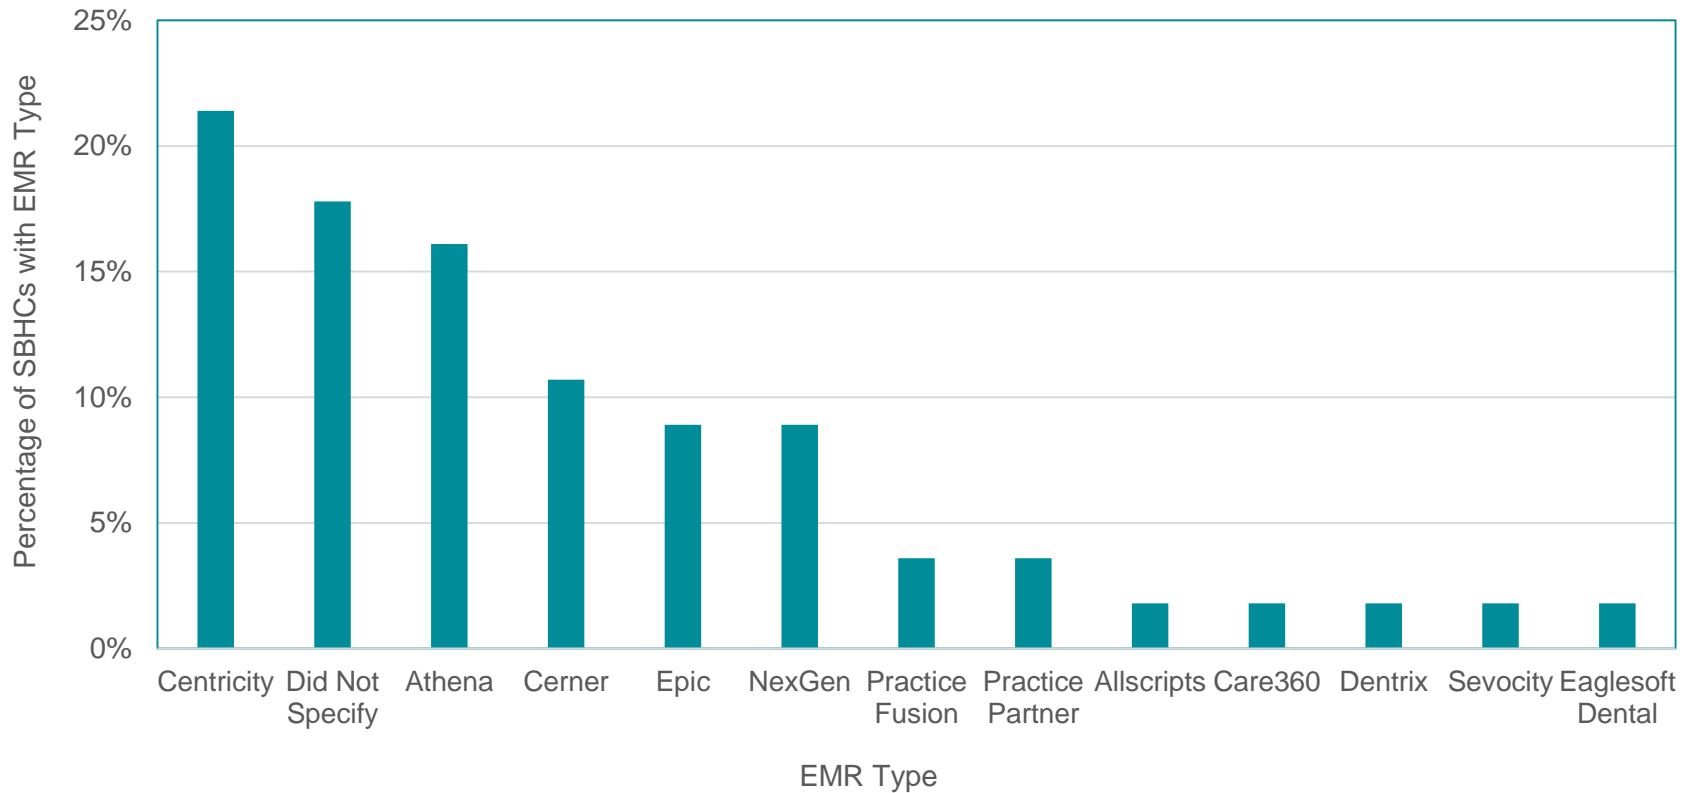

Oral Health

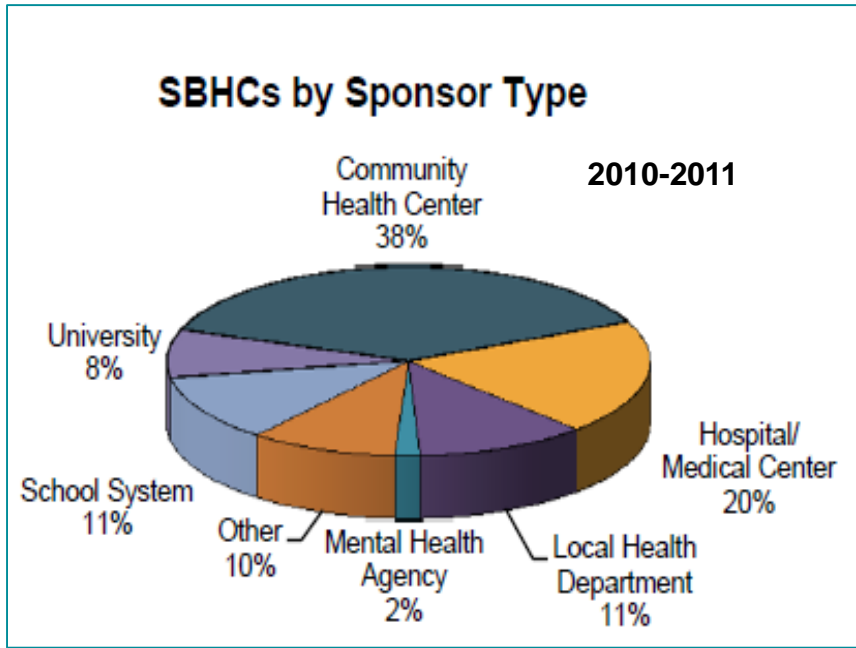

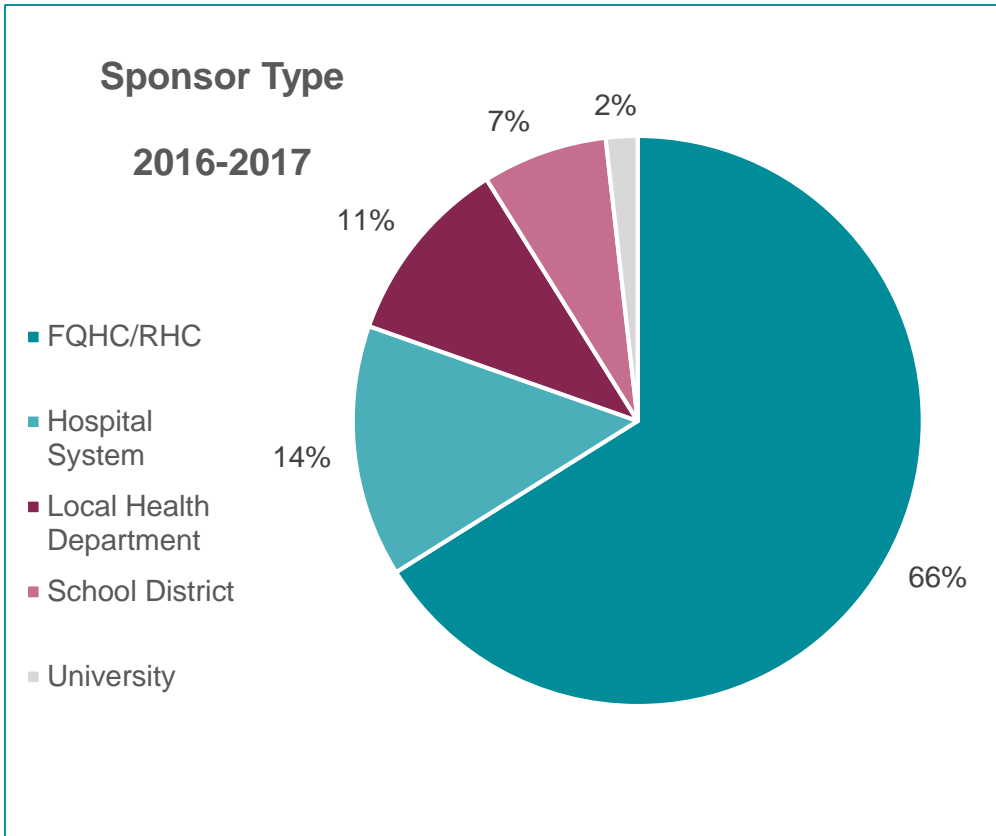

- Average: 9.3 hours/week
- 47.8% of centers that provide oral health care only provide it 1-2 hours per week

Health Information Technology

SBHC EMR Platform

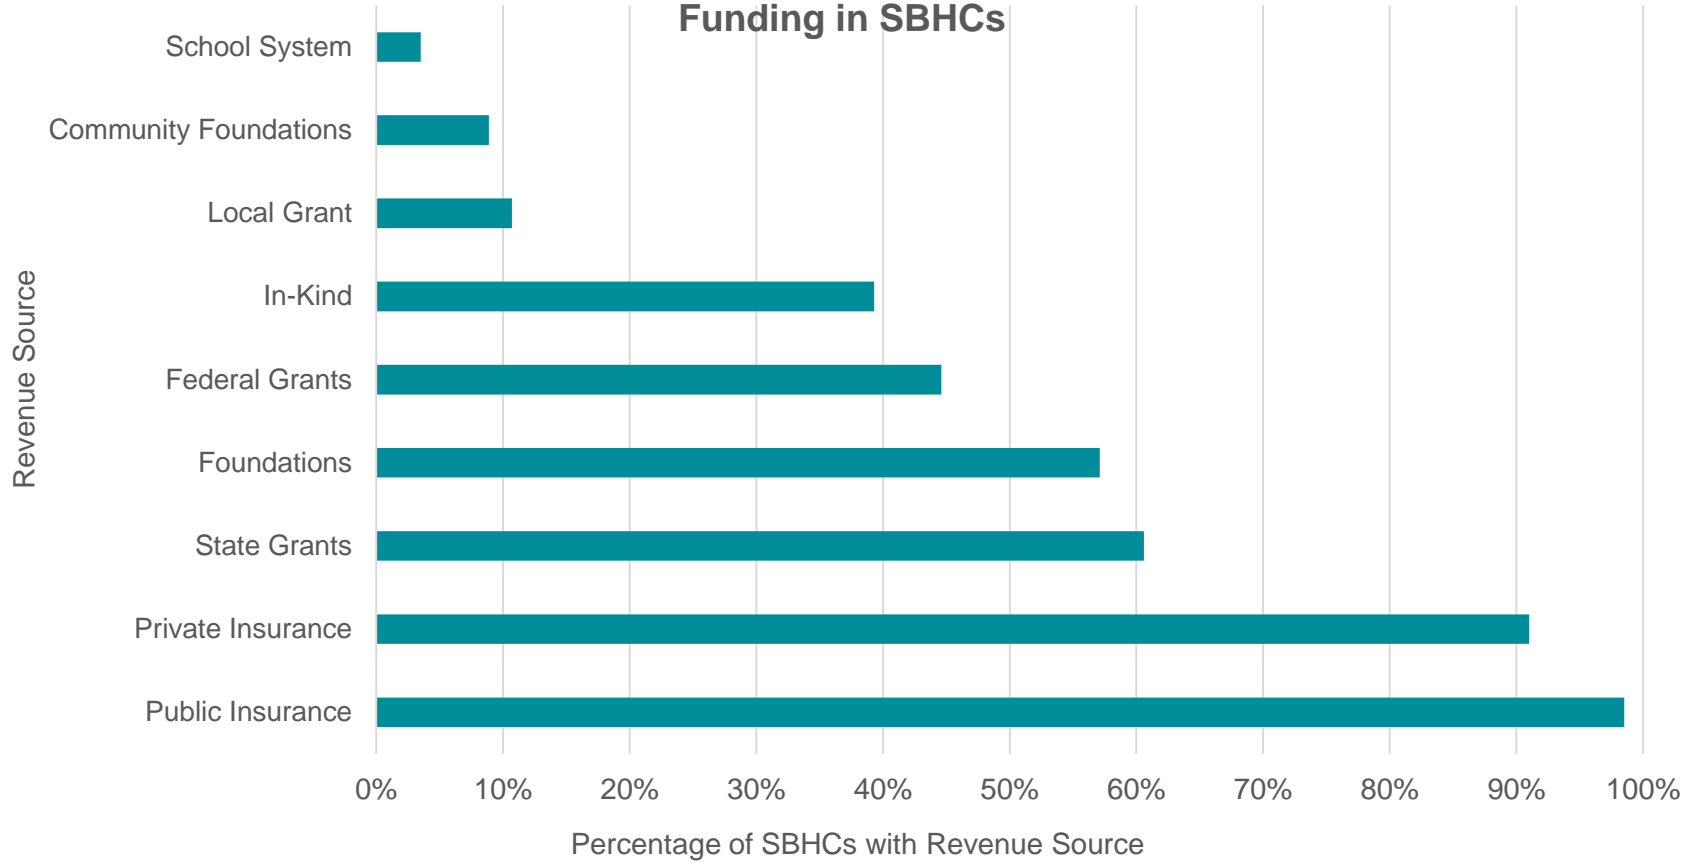

Sponsorship

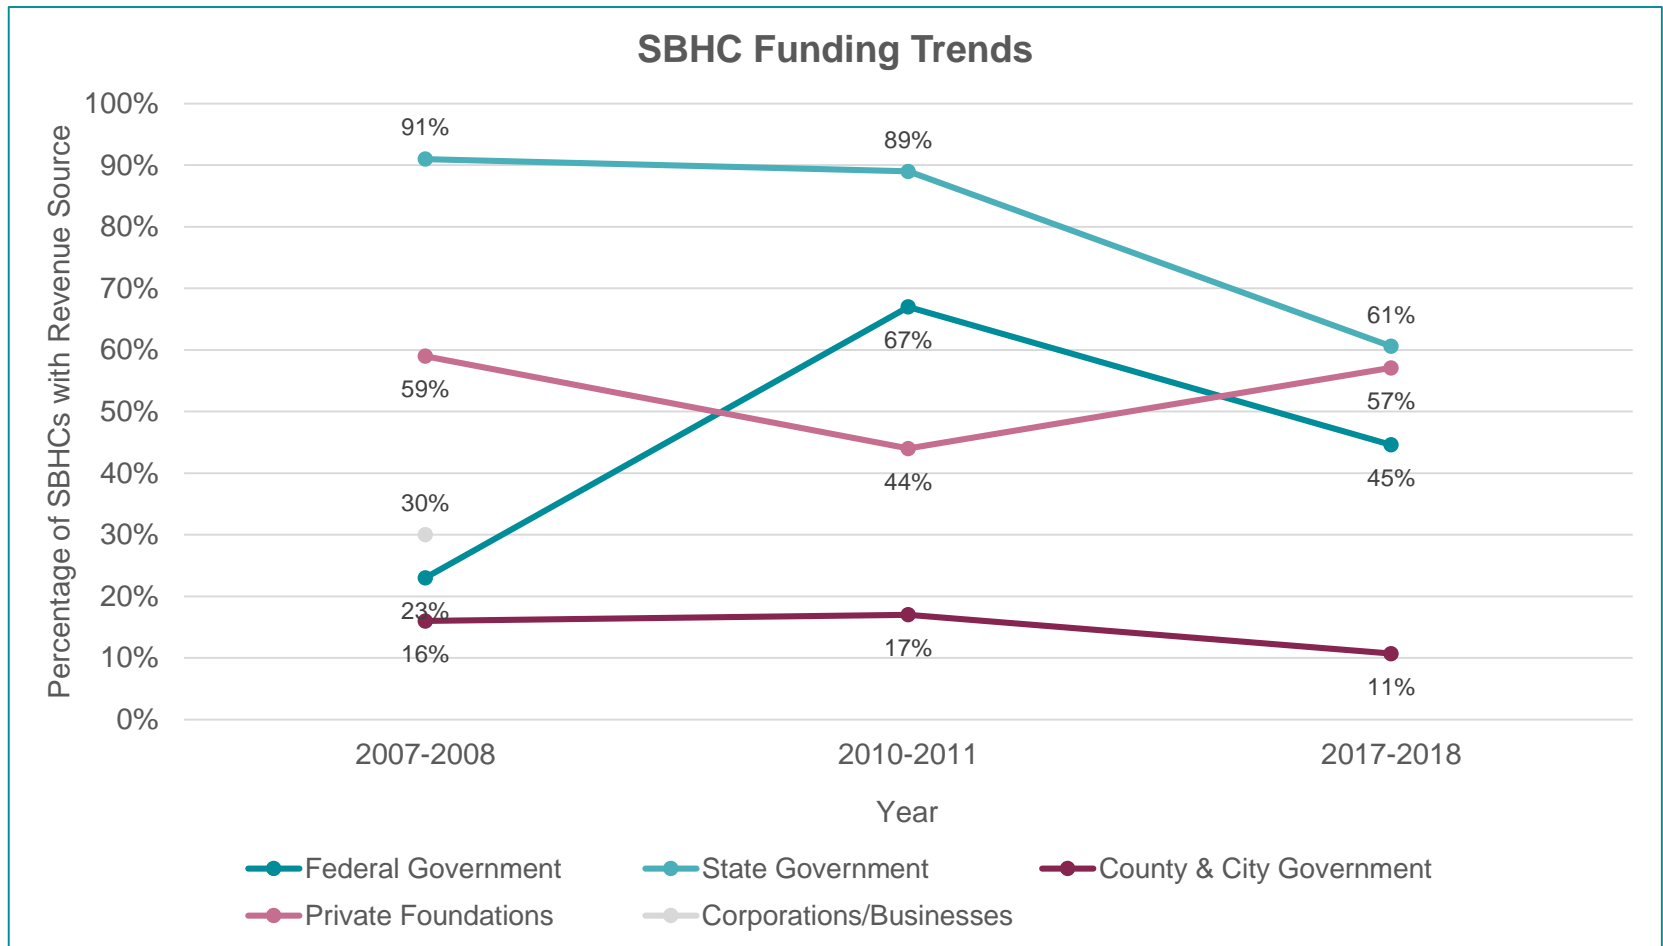

Funding

Funding in SBHCs

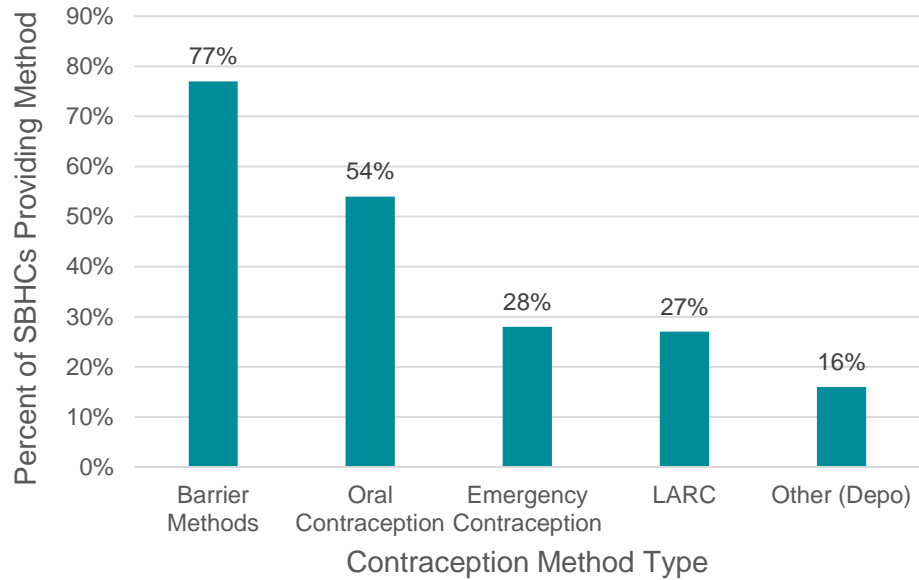

Funding Trends

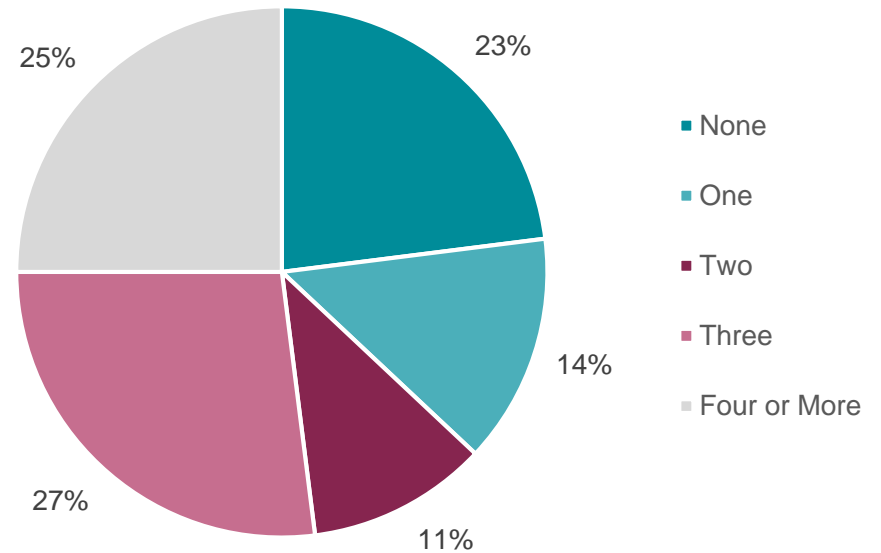

Contraception Provision

- 77% of SBHCs offer some form of contraception, while 23% do not provide any form of contraception
- Survey looked at four categories:
 - Barrier methods
 - Oral contraceptives
 - Long-Acting Reversible Contraception (LARCs)
 - Emergency contraception

Contraception in SBHCs

Percentage of SBHCs Offering Contraceptive Methods
